SUMMARY

Versatile Web/App Developer with a strong focus on Frontend Development, skilled in HTML, CSS, JavaScript, AI technologies and frameworks such as Angular, React and Bootstrap. Familiar with design tools like Figma and Photoshop, with a keen eye for creating responsive, user-centered interfaces. Backed by solid backend knowledge, including PHP, MySQL. Passionate about building high-performance web applications and continuously expanding technical and creative expertise.

WORK EXPERIENCE

Oct 2019 - Feb 2022

Fullstack Developer - SAU

- Developed responsive websites using HTML, CSS, JavaScript, Bootstrap and PHP to ensure optimal performance across all devices.
- Optimized JavaScript code for enhanced performance and scalability, improving page load times and overall application efficiency.
- Designed user-friendly interfaces with a focus on visual aesthetics.
- Accessibility, and seamless cross-device consistency.
- Customized Joomla templates and extensions for both front-end and back-end functionalities, enhancing user experience and site performance.

Web/App Developer & Designer - Freelancer

June 2022 - Present

- Designed and developed websites and web applications for private clients.
 - Built and optimized web applications using HTML, CSS, JavaScript, TypeScript and frameworks like React, Vue, or Angular, depending on project requirements.
-

EDUCATION

Sep 2014 - Sep 2020

Bachelor in Computer Engineering Wadi International University

- **Key Courses:** Modeling and Programming (C++) - Web Engineering (with a final project website) - Database (MySQL) - Artificial Intelligence
- **Bachelor Thesis:** Development of a Web Application for Mood-Based Music Recommendation Using Facial Recognition. The web application employs the Fisherfaces algorithm for accurate facial recognition and expression classification.

Technologies Used for the project : Python, OpenCV, Flask, HTML, CSS, JavaScript.

TECHNICAL SKILLS

- **Programming Languages:** C++, Python, PHP, JavaScript, TypeScript
 - **Web Technologies:** HTML, CSS, REST APIs, GraphQL, PDF parsing (pdf-parse, PDF.js)
 - **Database Management:** MySQL, SQL
 - **Frameworks & Libraries:** Angular, React, React Native, Expo (SDK), Next.js, Symfony, Vue.js, Bootstrap, Tailwind CSS, React Navigation, Zustand
 - **AI & Cloud Technologies:** OpenAI API, Prompt Engineering, AI-Generated Code(ChatGPT/Cursor/DeepSeek), GitHub Copilot, Serverless Deployment (Vercel, Railway), Supabase (Auth/DB/Sync)
 - **Design & Multimedia Tools:** Figma, Photoshop
 - **Content Management Systems (CMS):** WordPress, Joomla
 - **Productivity Tools:** Microsoft Office (Word, Excel, PowerPoint), JIRA
 - **Version Control & Collaboration:** Git, GitHub
 - **Operating Systems:** Windows
 - **Testing & Release:** Jest (jest-expo), @testing-library/react-native, unit/integration tests, EAS Build, Android App Bundle (.aab), Google Play Console (Closed Testing)
-

COURSES ON UDEMY

- The Complete JavaScript Course 2024
 - PHP for Beginners - Become a PHP Master with a CMS Project
 - The Complete PHP MYSQL Professional Course with 5 Projects
 - Wordpress & Elementor Mastery 2024 - Learn To Build Websites
 - Symfony 6 Framework Hands-On
 - React - The Complete Guide 2025
 - Master Angular and build awesome, reactive web apps with the successor of Angular.js
-

PROJECTS

- [2-Minute Reset \(Expo + React Native, iOS/Android/Web\)](#): Built a lightweight mental reset app that guides users through 2-minute sessions (Breathing, Grounding, Reframe, Panic) with an intensity check-in/out flow. Implemented offline-first session logging with optional Supabase sync, multi-language support (EN/DE), data export, and a clean, consistent UI system with reusable components. Added unit + UI tests (Jest + Testing Library) and automated build pipeline using EAS.
- [Doctor Profile Website \(Next.js\)](#): Modern one-page profile site for a medical graduate with smooth section navigation, active-section highlighting, subtle motion/"breathing" logo animation, responsive layout, and a contact form that opens the visitor's email client (mailto); Next.js, TypeScript, Tailwind CSS, Framer Motion.
- [JobfitAI](#): AI-powered resume/job description analyzer built using Next.js, TypeScript, Tailwind CSS, OpenAI API, and PDF.js. Allows users to upload a CV and a job description to receive an AI-generated match score and improvement suggestions. Deployed on Railway.
- [portaforge.app](#): Portfolio builder created using React, Firebase (Auth + Firestore), and Bootstrap. Supports GitHub login and real-time updates.
 - my portfolio link using this app [click here](#)

- memokeeper.de: website for storing user notes created with Html,CSS,JavaScript,AJAX,Bootstrap (Frontend) and PHP,MySQL for(Backend).
 - kaissajjammal.com: portfolio website created with Html,CSS and JavaScript (No Frameworks)
 - kaiss.fun: portfolio website created with Wordpress and Elementor.
 - Content Cleaner (FastAPI): Text/HTML normalizer with Bearer auth, per-token rate limit, and a responsive demo UI; Python (FastAPI/BeautifulSoup), Docker, OpenAPI.
 - Cat Adoption Website: Completed a Frontend assessment for regiocom SE company as part of the hiring process, Developed a responsive and interactive website using Angular and Bootstrap, TypeScript, API to fetch and display dynamic data.
 - PassItOn (Vue 3 + TypeScript): Local give-away marketplace PWA (search, categories, favorites, item details) with Firebase Auth, Cloudinary, Pinia, Vue Router, i18n, MSW, Vitest, Vite PWA; built with Cursor (AI pair-programming) to speed refactors/tests.
-

LANGUAGES

English (Very Good - C1)

German (Good - B2)

Arabic (Mother Language)

CHARACTERISTICS

- Willing to learn: Driven by a genuine curiosity and a belief that continuous learning enriches life and expands potential.
 - A team player: Enjoys collaborating with others to achieve shared goals, valuing diverse perspectives to foster creativity and problem-solving.
 - Able to take criticism: Open to constructive feedback as a tool for growth, always striving to improve and adapt.
 - Proactive and innovative: Consistently looks for ways to improve processes, solve challenges, and add value, often taking initiative on tasks without needing direction.
-

CERTIFICATES

- Secodary Education Certificate
- Bachelor's degree Certificate in Computer Engineering
- FCE Firtst Certifcate English
- B2 Certificate in German
- [Introduction to HTML5 :An online course authorized by University of Michigan and offered through Coursera](#)
- [Introduction to Front-End Development an online non-credit course authorized by Meta and offered through Coursera](#)
- [Programming with JavaScript an online non-credit course authorized by Meta and offered through Coursera](#)
